

Leader in Adult Care Apprenticeship

Level 5:

End-point Assessment Plan

August 2019

Introduction & Overview

This document sets out the requirements for end-point assessment (EPA) for the Leader in Adult Care apprenticeship standard. It is written for end-point assessment organisations who need to know how EPA for this apprenticeship must operate. It will also be of interest to apprentices, their employers and training providers.

Full-time apprentices will typically spend 18 months on-programme working towards the apprenticeship standard, with a minimum of 20% off-the-job training.

The EPA should only start once the employer is satisfied that the apprentice is consistently working at or above the level set out in the standard, the pre-requisite gateway requirements for EPA have been met and that they can be evidenced to an EPA organisation.

As a gateway requirement, apprentices must complete the level 5 Diploma in Leadership and Management for Adult Care prior to taking their EPA. Apprentices without level 2 English and maths will need to achieve this level prior to taking the end-point assessment. For those with an education, health and care plan or a legacy statement, the apprenticeship's English and maths minimum requirement is Entry Level 3 and British Sign Language qualifications are an alternative to English qualifications for whom this is their primary language.

The EPA must be completed over a maximum total assessment time of two days, within a three month period, after the apprentice has met the EPA gateway requirements.

EPA must be conducted by an organisation approved to offer services against this standard, as selected by the employer, from the Education & Skills Funding Agency's Register of End Point Assessment Organisations.

The EPA consists of two distinct assessment methods:

- Observation of Leadership
- Professional discussion

It is a requirement for the learner to be able to demonstrate in both end point assessment methods, that throughout the course of the Apprenticeship, they have achieved the required knowledge but have also been able to put this into practice through the evidence of the skills and behaviours. Apprentices should demonstrate this through giving authentic examples of how they have applied these skills.

Performance in the EPA will determine the apprenticeship grade of fail, pass or distinction.

End-point Assessment Gateway

The EPA should only start once the employer is satisfied that the apprentice is consistently working at or above the level set out in the standard, the pre-requisite gateway requirements for EPA have been met and that they can be evidenced to an EPA organisation. Employers may wish to take advice from their apprentice's training provider(s).

Gateway requirements:

- Apprentices without Level 2 English and maths will need to achieve this level prior to taking end-point assessment. For those with an education, health and care plan or a legacy statement the apprenticeships English and maths minimum requirement is Entry Level 3 and British Sign Language qualification is an alternative to English qualifications for those whom this is their primary language.
- Level 5 Diploma in Leadership and Management for Adult Care
- The employer is satisfied that the apprentice is consistently working at or above the level set out in the occupational standard, that is to say they are deemed to have achieved occupational competence.

End-point Assessment Methods, Timescales & Location

The end-point assessment consists of two distinct assessment methods:

1. Observation of Leadership
2. Professional discussion

The end-point assessment must be completed over a maximum period of three months, after the apprentice has met the EPA gateway requirements.

The assessment methods can be completed either on the same day or on different days to best fit the needs of the employer, the apprentice and the independent assessor. The assessment methods can be undertaken in any order.

EPAOs must ensure that the professional discussion and questioning element of the observation are conducted in a suitable controlled environment i.e. quiet room free from distraction and influence, with the necessary equipment for each assessment method e.g. computer, PowerPoint facilities (if required by the apprentice). It is anticipated that EPAOs will use the employer's premises wherever possible to minimise costs. They may be conducted face-to-face or via an online platform e.g. video-conferencing. EPAOs must ensure appropriate methods to prevent misrepresentation are in place should an online option be used. For example, screen share and 360-degree camera function with an administrator/invigilator when carrying out the assessment of the professional discussion.

Requirements for each assessment method are detailed below.

Assessment method 1 - Observation of Leadership

- Observation of Leadership must include the ability to demonstrate leadership to an organisational audience. It is expected that the Apprentice will lead the activity and will have prepared for this in advance and have all necessary information and evidence prepared

beforehand. The apprentice should be given a minimum of 2 weeks and a maximum of 4 weeks to prepare for this activity following the gateway. Apprentices must ensure that the appropriate organisational staff are present at the activity and are notified in advance of the activity. Any preparatory documentation/ presentation should be shared with the EPAO prior to the observation. Preparation for the observation should commence, once the Gateway process has been confirmed as completed by the EPAO. This will be in areas such as:

- * service development/improvement plans, for example: presenting or reporting on frontline delivery work in supporting those who use services to improve outcomes.
 - * a response to regulatory and legislative requirements, for example: working with external partners, funders, stakeholders. In the form of a meeting to plan for changes to service provision based on regulatory and legislative requirements arising from inspections.
 - * development of service provision, for example, this may be in the form of presenting some information or analysing data in relation to evidence based practice to develop or improve the service provision.
 - * setting up new service provision, for example, presenting outcomes from market research in relation to unmet need, financial viability and local strategic direction. This could include invitations tender applications.
 - * When and how to trigger a best interest meeting, who should be involved and what their roles and responsibilities should be. For example, preparing for a best interest meeting, the rationale around the need to trigger the meeting and interrogating internal procedures and processes in relation to this.
-
- During or after the task completion the independent assessor must ask a minimum of 4 set open questions to assess related underpinning knowledge. They may ask follow up questions where clarification is required. Questioning must be completed within the total time allowed for the observation.
 - The suitable workplace activity and its content should be agreed in advance and with the appropriate notice by the employer, apprentice and EPAO as it is recognised that these activities may not occur on a daily or weekly basis. The EPAO needs to ensure that the proposed activity will provide scope for appropriate coverage of the KSBs mapped to this method.
 - Where the EPAO believes that the planned activity will not demonstrate appropriate coverage of the KSBs, then this must be communicated to the employer and apprentice in a prompt manner. The EPAO must then guide the employer and apprentice so that a further activity can be proposed that should demonstrate appropriate coverage of the activity and that this can occur within the EPA window.
 - The selected leadership activity must be based on real-life improvement to the apprentice's employer and the users of their services.
 - The employer, apprentice and EPAO must comply with the requirements of the GDPR and all other safeguarding duties.
 - The independent assessor will observe the apprentice and carry out follow-up questions in private.
 - Observation of Leadership can be undertaken either directly (face-to-face) or through virtual technology but this should be agreed by the employer, apprentice and EPAO first.
 - This assessment method will last a total of 75 minutes and is comprised of two stages. The observation should take 60 minutes (+ 10% variation at the discretion of the independent assessor to allow the apprentice to complete the task).
 - There must be a post-observation questioning session (on the same day) which would allow the independent assessor to further probe any required areas that were not covered in the observation using open-ended questions. This should take 15 minutes (+10% variation at

the discretion of the independent assessor to allow the apprentice to complete their last answer) and this time is in addition to the 60 minutes of direct observation.

- The independent assessor should base their questions on the leadership activity they have just observed to seek clarification on points which were not clear.

Assessment method 2 – Professional discussion

- The professional discussion is an in-depth, two-way discussion between the apprentice and the independent assessor. The independent assessor will undertake the Professional Discussion and, wherever possible must be the same independent assessor who conducts Observation of Leadership.
- The professional discussion is for the independent assessor to ask the apprentice questions in relation to knowledge, skills and behaviours as set out in Annex A.
- The professional discussion should take 60 minutes (+10% at the discretion of the independent assessor to allow the apprentice to finish their last answer). The room should be quiet and away from distraction.
- The independent assessor will ask questions to ensure all the relevant behaviours, knowledge and skills that are mapped to this assessment method (see annex A) are covered.
- The independent assessor must ensure that at least one question is asked for each of the knowledge skills and behaviour groups that are mapped to this assessment method, as defined in the Standard (eg. tasks and responsibilities, dignity and human rights, communication, safeguarding, health and wellbeing, professional development, leadership)
- The independent assessor can ask follow up questions for clarity.
- The questions will be provided by the EPAO and the independent assessor will select from these. Guidance must be provided to the independent assessor on how to conduct the questioning element of this assessment method.
- The responses to the questions must be recorded.
- A question bank must be developed by EPAOs. The question bank must be of sufficient size to prevent predictability and be reviewed regularly (at least once a year) to ensure that it, and its content are fit for purpose.

Apprenticeship Grading

Independent assessors must individually grade each assessment method – fail, pass or distinction, according to the requirements set out in this plan. Restrictions on grading apply where the apprentice re-sits/re-takes an assessment method – see re-sit/re-take section below.

An independent assessor must combine the grades of both assessment methods to determine the EPA grade. To achieve an EPA pass, the apprentice must achieve a pass in both assessment methods. To achieve an EPA distinction, the apprentice must achieve a distinction in the professional discussion assessment method. See grading combinations table below.

Independent assessors' decision must be subject to moderation by the EPAO – see internal quality assurance section below.

Observation of Leadership	Professional discussion	EPA grade
Fail	Fail	Fail
Pass	Fail	Fail
Fail	Pass	Fail
Fail	Distinction	Fail
Pass	Pass	Pass
Pass	Distinction	Distinction

Diagram 2. Leader in Adult Care Grading Combinations

A pass is gained by achieving pass criteria for all behaviours, knowledge and skills. A distinction is gained by successfully achieving all pass criteria and through meeting at least 21 of the 26 distinction criteria within the professional discussion.

Re-sit and re-take information

Apprentices who fail one or more assessment method will be offered the opportunity to take a re-sit or a re-take. EPAOs must ensure that the apprentice undertakes an Observation of leadership activity with a new subject focus and that the Professional Discussion utilises different questions.

A re-sit does not require further learning, whereas a re-take does. The maximum grade awarded to a re-sit or re-take will be pass, unless the EPAO identifies exceptional circumstances accounting for the original fail.

Apprentices should have a supportive action plan to prepare for the re-sit or a re-take. The apprentice's employer will need to agree that either a re-sit or re-take is an appropriate course of action.

An apprentice who fails an assessment method, and therefore the EPA in the first instance, will be required to re-sit or re-take any failed assessment method only.

The timescales for a resit or retake is agreed between the employer and EPAO. A resit is typically taken within 3 months of the EPA outcome notification. The timescale for a retake is

dependent on how much re-training is required and is typically taken within 6 months of the EPA outcome notification.

End-point Assessment Organisations

Employers must choose an independent EPAO approved to deliver the EPA for this apprenticeship from the Education & Skills Funding Agency's (ESFA) Register of End Point Assessment Organisations (RoEPAO).

Requirements for Independent Assessors

- Must have at least three years' work experience in the sector and at least the same level as the apprenticeship. This means they are capable of carrying out the full requirements within the competence they are assessing; possessing knowledge, understanding, experience and skills relevant to the Standard being assessed. This must include having current knowledge of relevant legislation, regulation, codes of practice and good practice guides. This should be maintained through clearly demonstrable continuing learning and professional development of at least five days per year.
- Must be qualified to at least the level they are assessing.
- Must hold a formal assessor qualification at, or equivalent to, Regulated Qualification Framework level 3.
- Must have the expertise to administer the assessment tools required.

Internal Quality Assurance

Internal quality assurance refers to the requirements that EPA organisations must have in place to ensure consistent (reliable) and accurate (valid) assessment decisions.

EPA organisations for this EPA must undertake the following:

- Appoint independent assessors that meet the requirements detailed above.
- Provide training for independent assessors in terms of good assessment practice, operating the assessment tools and grading.
- Have robust quality assurance systems and procedures that support fair, reliable and consistent assessment across the organisation and over time.
- Operate induction training for independent assessors when they begin working for the EPAO on this Standard.
- Operate regular standardisation events for independent assessors which enables them to attend a minimum of one event annually for this Standard and before they deliver an assessment method for the first time.

- It is recommended that End-Point Assessment Organisations meet annually with all other End-Point Assessment Organisations for Leader in Adult Care at an event chaired by the external quality assurance organisation to share practices and resolve issues which have arisen.

Those carrying out internal quality assurance functions within an End-Point Assessment Organisation must:

- Be occupationally knowledgeable in the area they are quality assuring. This means they possess knowledge and understanding relevant to the Standard being assessed which is maintained annually through clearly demonstrable continuing learning and professional development.

- Have experience of working in the adult care sector.
- Experience should be relevant to the assessment being quality assured and maintained annually through clearly demonstrable continuing learning and professional development.
- Hold a formal internal quality assurance qualification at, or equivalent to, Regulated Qualification Framework level 4.

Assessment tools and materials

EPA organisations must produce assessment tools and supporting materials for the EPA that follow best assessment practice.

Implementation

Affordability

The following factors should ensure the EPA is affordable:

- Employers premises should be used for EPA venues where possible
- Remote assessment is permissible, reducing travel costs
