ARCHAEOLOGICAL SPECIALIST (DEGREE)

ARCHAEOLOGICAL SPECIALIST (DEGREE)

Reference Number: ST0769

Details of standard

Occupation summary

This occupation is found in the Cultural Heritage, Historic Environment and Education sectors. The broad purpose of the occupation is to plan, undertake and lead Archaeological Research and Investigation, which may comprise surveys, excavation, post-exavation analysis and scientific analysis of archaeological materials and data. Archaeological Specialists have specialised knowledge of one or more aspects of archaeological investigation and analysis. They are responsible for the processing, reporting and preparation for long-term deposition of archaeological data and materials. In their daily work, an employee in this occupation interacts with organisations of all sizes in the public, private and third sectors. Typically, they interact with colleagues, external stakeholders and members of the public. Archaeological Specialists work on site (outside, all weathers), in an office or in a laboratory, including operating technical equipment and carrying out physical tasks. An employee in this occupation will be responsible for leading and undertaking Archaeological Research and Investigation, with a high level of responsibility for the delivery and quality of their own work and that of others. They are responsible for providing a specialist resource to colleagues. The size of the employer will impact the team the Archaeological Specialist is responsible for, or interacts with, but typically they will train and supervise less skilled personnel, and be responsible for the delivery of programmes and projects of all sizes and complexities, as well as communicating the results of the work internally and externally.

Typical job titles

Typical job titles include: Finds Supervisor, Project Officer, Finds Officer, Geophysics Supervisor, Materials Scientist, Artefact Specialist, Aerial Investigation and Mapping Investigator, Archaeological Investigator, Environmental Archaeologist, Heritage Scientist, Osteoarchaeologist, Dendrochronologist.

Entry requirements

While any entry requirements will be a matter for individual employers, candidates will typically have GCSEs (or equivalent) at A*- C (9-4) including maths and English and science. A-levels or BTECs (or equivalent) are desirable. However it would also be suitable for an undergraduate or someone with relevant work experience in a relevant field.

- K2, K3, K4, K7, K8, K9
- S4, S6, S7, S9
- B1, B2, B6

**Duty 15** Contribute to and initiate advances in Historic Environment body of knowledge and practice, including participation in specialist networks and peer groups.

Meet professional criteria outlined in the Chartered Institute for Archaeologists’ competency matrices (Member level) and Standards and Guidance pertaining to the relevant specialism.

- K1, K2, K3, K4, K5, K6, K8, K9
- S1, S2, S3, S4, S5, S6, S7, S8, S9
- B1, B3, B4, B5

**KSBs**

**Knowledge**

K1 how to recognise and understand archaeological site types, periods, artefacts and ecofacts and site formation processes.

K2 methods of archaeological investigation, how and why archaeological materials/ data are recovered

https://www.instituteforapprenticeships.org/apprenticeship-standards/archaeological-specialist-degree/
K3 relevant primary and secondary data and sources relating to Archaeology

K4 understanding of how established techniques and methodologies can be practically employed in the research area of their specialism, and how they are used to create and interpret knowledge.

K5 critical awareness of current academic research within the specialism, and regional, national and international research agendas

K6 requirements of formal publication, including standards for writing, editing and style

K7 fundamentals of relevant Health and Safety legislation and their employer's Health and Safety Policy and Procedures and operational procedures.

K8 legal requirements, professional standards, relevant procedures and guidelines relevant to archaeological investigation and the processing, publication and storage of data and materials

K9 roles of clients, stakeholders and project team members within an archaeological investigation and how to ensure effective relationships and communications between them

Skills

S1 research, access and apply relevant primary and secondary data relating to Archaeology

S2 contextualise and synthesise data and results within relevant frameworks.

S3 maintain and develop reference materials and databases, categorising and classifying data, including electronic data, appropriately.

S4 select, secure, check and calibrate suitable equipment and reference resources

S5 evaluate the relevance of research methodologies, techniques and background information to the investigation in question

S6 work effectively both independently and within a team

S7 work accurately and efficiently to conduct work to high standards within defined project objectives

S8 communicate clearly and effectively through written documentation

S9 ability to employ supervisory techniques effectively

Behaviours

B1 be receptive to feedback, commit to quality and continuous professional development, including independent learning.

B2 know the limits of their own understanding, abilities and responsibilities, how to practice within them, and when and how to seek expert assistance

B3 be capable of conceptual thought, independent decision-making and professional judgement in order to solve problems and plan and complete complex tasks

B4 work effectively individually and as part of a team including professional collaboration and cross-disciplinary dialogue
B5 be approachable and able to communicate with all levels of their own and other organisations, as well as the general public

B6 apply an awareness of professional judgement and ethical behaviour. Be sensitive to and aware of the cultural, historic and spiritual context of objects and structures

B7 take reasonable care for the health and safety of themselves and of others who may be affected by their acts or omissions at work

**Qualifications**

**English and Maths qualifications**

Apprentices without level 2 English and maths will need to achieve this level prior to taking the End-Point Assessment. For those with an education, health and care plan or a legacy statement, the apprenticeship’s English and maths minimum requirement is Entry Level 3. A British Sign Language (BSL) qualification is an alternative to the English qualification for those whose primary language is BSL.

**Other qualifications**

**Mandatory qualification 1: An MA or MSc degree in an Archaeology or Archaeological Science subject.**

**Level of qualification:** 7 (non-integrated degree)

**Basis for mandatory qualification:** Hard sift

**Professional recognition**

Chartered Institute for Archaeologists / Member

**Additional details**

**Occupational Level:** 7

**Duration (months):** 36

**Review**

This standard will be reviewed after three years.
