Business Administrator:
Level 3 Standard Assessment Plan

1. Introduction

The Business Administrator apprenticeship is a minimum of 12 months and should typically be completed within 18 months. The apprenticeship provides a highly transferable set of knowledge, skills and behaviours, which can be gained working across an organisation and its processes. The apprenticeship is a firm grounding in organisational operations and functional processes, as well as the wider working environment.

Key responsibilities include developing, implementing, maintaining and improving administrative services. In doing so, the apprentice is expected to work independently and take responsibility for the outcomes of their work, with support of the employer and the training provider. Through working across functional areas, apprentices build team relationships quickly and learn from others to develop specific skill sets. The need to communicate and represent their work clearly is reflected in the assessment methods of End Point Assessment (EPA).

The assessment methodology provides fair, valid and rigorous assessment across the learning outcomes of the Standard and guidelines on completing assessment.

In developing the Assessment Plan, the following principles have been applied:

- applicability of this apprenticeship role to the administrative services of any organisation
- equal opportunities across apprenticeships, where expectations of assessment should be met irrespective of employer size, sector or functional area
- ‘continuous learning’ emphasis to be met throughout the programme in working towards EPA, such as with the portfolio being prepared on-programme for discussion at interview
2. Assessment Methodology

<table>
<thead>
<tr>
<th>Learner Induction Period</th>
<th>On Programme</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - 3 months</td>
<td>3 - 12 months onwards</td>
</tr>
</tbody>
</table>

- Context planning meeting held between employer and training provider, establishing expectations in supporting the learner to meet the Standard.
- Expectations and responsibilities are set out with the apprentice.

- Learner to compile portfolio in this time.
- Line manager responsible for regular 1-to-1s.
- Training provider to support learning in meeting KSBs, through training and resources.

3. Assessment structure

a) Pre-gateway

Learning progress to be supported by regular 1-to-1s between the apprentice and the employer.

These sessions should:
- set learning goals
- track apprentice progress
- create a forum for coaching and guidance
- co-ordinate 20% of apprentice time being spent in off-the-job training.

It is recommended that the training provider should periodically make contact with the employer; typically for 15-30 minutes every 6 weeks, depending on requirements of the employer and the apprentice. Any gaps should be identified that may prevent the apprentice meeting the learning outcomes of the apprenticeship. For example, the training provider and employer can discuss types of work and responsibilities of the...
apprentice to assess whether this is suitable in meeting the Standard. The training provider should support with tutorials and appropriate resources.

b) Gateway for the End Point Assessment

The End Point Assessment (EPA) can only be triggered after 12 months of starting the apprenticeship and is dependent on when the employer and training provider decide the apprentice is ready. EPA is typically expected to conclude within 3 months. The employer has the final decision to progress the apprentice to EPA. The apprentice and training provider should feel confident the learning outcomes have been achieved.

Training provider:
Ahead of EPA, the training provider should support the apprentice in meeting the Standard and then judge whether the apprentice has successfully met those learning outcomes to trigger EPA. Level 2 English and maths will need to be completed before triggering EPA. In considering these factors, the training provider is able to advise the employer when the apprentice is ready for EPA for the employer to decide.

Employer:
The employer makes the final decision to progress the apprentice to EPA, by reviewing the Portfolio of Learning and performance of the apprentice in meeting the Standard. The employer confirms whether digital skills have been shown and the apprentice is recognised for on-the-job IT skills. If the employer feels that the apprentice has met the learning outcomes, and is competent in the apprenticeship role, they should progress the apprentice to EPA.

Apprentice:
The apprentice makes every effort to have gained the knowledge, skills and behaviour across the Standard, as demonstrated in their Portfolio of Learning and 1-to-1s. The project is to be completed before the gateway can be triggered. The apprentice must complete Level 2 English and maths before progressing to EPA, if not completed prior to the apprenticeship. The apprentice should be aware of the process for EPA and what should be specifically required of them, agreeing to undertake the EPA.

c) Assessment methods

The EPA consists of three elements, all of which may be completed online. All assessment methods need to be passed. Each assessment method should directly assess the knowledge, skills and behaviours of the Standard. The assessor has the final decision.

Knowledge Test:
The apprentice undertakes a multi-choice test to last a maximum of 60 minutes and include 50 equally weighted multi-choice questions with four possible answers each. The assessment must be passed before the apprentice progresses to the interview and presentation. The test is to be completed online and requires invigilating. Apprentices must take the test in a suitably controlled environment that is a quiet space, free of distractions and influence, in the presence of an invigilator arranged by the EPAO. The invigilator may be the independent assessor or another external
person employed by the EPAO or specialised (proctor) software, if the test can be taken on-line. The EPAO is required to have an invigilation policy that will set out how the test/examination is to be carried out. This will include specifying the most appropriate ratio of apprentices to invigilators to best take into account the setting and security required in administering the test/examination. The EPAO is responsible for ensuring the security of testing they administer to ensure the test remains valid and reliable (this includes any arrangements made using online tools). The EPAO is responsible for verifying the validity of the identity of the person taking the test.

**Responsibilities:** Multiple-choice tests should sample across the areas mapped to it to allow the test to determine the strength of the apprentice and avoid becoming too predictable.

Questions must be written and standardised by the EPAO and must be relevant to the occupation and employer settings. It is recommended that this be done in consultation with employers of this occupation. EPAOs should also maintain the security and confidentiality of their questions when consulting employers. EPAOs must develop ‘question banks’ of sufficient size to prevent predictability and review them regularly (and at least once a year) to ensure they, and the questions they contain, are fit for purpose (to avoid apprentice familiarity with the questions and to ensure they are current e.g. in terms of legislation and regulation, and working practices). Predictability of questions may also be reduced by multiple-choice tests should sample across the areas mapped to it to allow the test to determine the strength of the apprentice and avoid becoming too predictable. EPAOs must ensure that apprentices have a different set of questions in the case of re-sits/re-takes.

**KSBs:** The test predominantly focuses on non-organisation specific knowledge outlined in the Standard. This includes relevant regulation and laws, business fundamentals and project management principles. Please view annexed table for the KSBs to be assessed by each assessment method.

**Portfolio-based Interview:**

The interview is for 30-45 minutes and scored out of 100 by the Independent End-point Assessment Organisation (EPAO). The Portfolio of Learning provides a structure for this conversation. The Portfolio should provide at least one piece of evidence for each of the KSBs outlined in the Assessment Methods and Grading annexed table. This should be submitted to the EPAO a month prior to interview. Evidence is gathered on-programme and the employer should facilitate this through relevant tasks and support, as outlined in the annexed table. The employer should review the Portfolio with the apprentice and make a judgement on whether they should be progressed to EPA. The interview assesses understanding and learning shown in the Portfolio.

The portfolio is not directly assessed. It underpins the interview and therefore should not be marked by the EPAO. EPAOs should review the portfolio of evidence in preparation for the interview but are not required to provide feedback after this review of the portfolio.

The interview assesses:
• understanding of the portfolio to validate competence shown
• self-reflection of performance, demonstrating knowledge and how appropriate skills and behaviours have been applied
• judgement and understanding to explain appropriate examples.

The Portfolio of Learning contains evidence of:
• a minimum of 8-12 pages is expected for consistency
• at least one of each of the minimum knowledge, skills and behaviours as outlined in the annexed Methods and Grading table
• practical observation and/or evaluation by the employer to be included, such as acknowledgement of a skill shown or evidencing work completed on a particular project with manager comments, which is then discussed at interview
• **Note:** the portfolio is not directly assessed; it is used to frame discussion at interview, where KSBs are to be demonstrated.

**Responsibilities:** knowledge of the portfolio is to be assessed at interview by the EPAO. The training provider is responsible for providing guidance on compiling the portfolio on-programme, which is to be reviewed by the employer and training provider prior to triggering EPA. The employer should provide suitable work for the apprentice to apply themselves to and discuss at interview.

**KSBs:** Application of learning in the workplace is assessed by talking through examples and specific KSBs shown. Particular areas include the purpose of their organisation and value of their own role, quality in producing records or documents, and professional behaviours including respect and personal qualities. Please view annexed table for the KSBs to be assessed.
Project Presentation:

The apprentice delivers a presentation to the EPAO on a project they have completed or a process they have improved. The presentation lasts 10-15 minutes, with a further 10-15 minutes for a Q&A session. The presentation is out of 100. The project is completed from month 9 of the apprenticeship and should be completed prior to EPA being triggered. The project is submitted to the EPAO and they provide a question to answer in the presentation, for example:

- How have you improved a process or operating practice?
- What were the steps you took to implement the project?
- What worked well and how would you improve the results in future?

The presentation should summarise the aim, outcome and responsibilities of the KSBs shown in the project. The presentation should demonstrate how they approached a task and the skills shown in doing so, building towards how they would improve the results going forward.

The presentation is expected to be produced using Microsoft Office PowerPoint or Prezi, demonstrating a minimum level of IT skills.

Further requirements:

- A project or process improvement should account for 21-35 working hours, over the apprenticeship, to adequately apply themselves
- Must be work-based; incorporating scoping, planning, managing, communicating to stakeholders, monitoring and reporting results
- The apprentice chooses the project/process improvement with the guidance of the employer and training provider

Responsibilities: The training provider and employer are responsible for supporting the apprentice on what could be a suitable project or process improvement, in line with guidance from the EPAO.

KSBs: The presentation focuses on the skills required to complete a project or process improvement include planning and organisation, project management, demonstrating quality standards and decision making in prioritising areas of focus. These are assessed holistically. Evidencing these skills in the presentation is coupled with effective communication in delivery. Please view annexed table for the KSBs to be assessed.

d) Weighting and grading of assessment methods

The knowledge test must be passed, before progressing to interview and presentation. Each assessment method has a pass mark of 60% and must be passed in order to pass the overall apprenticeship. Grade boundaries are provided below for each method. The percentage scored for each of the Assessment Methods is to be rolled-up into an overall percentage to decide the grade for the apprenticeship. Percentage scores can only be rolled-up once all three assessment elements have been passed. If any of the three elements are failed, then the overall grade is a ‘Fail’ even if the sum percentage of the other two elements amounts to 60%+. The following weighting is to be used:

- Knowledge Test – 20%
- Portfolio Interview – 40%
• Project Presentation – 40%

The overall pass mark is 60% and a distinction can only be awarded if the apprentice has achieved 80%+ for each assessment method. The below descriptions provide expectations for the grading levels and a further specified criteria is annexed in a table for each KSB.

Grading scale:

Fail = less than 59%
The apprentice has not sufficiently evidenced the knowledge, skills and behaviours to meet the Standard. There has been a shortfall in demonstrating the KSBs on at least one of the assessment methods.

Pass = 60-79%
The apprentice has shown an adequate level of performance across the Standard. They can evidence a basic level of knowledge, understanding and application in demonstrating the learning outcomes. In particular, use of basic IT packages, communicating with different stakeholders, producing accurate records and documentation, and demonstrating learning of the working environment.

Distinction = 80% and over
The apprentice has shown a high degree of expertise across the Standard. They can evidence knowledge, understanding and application of learning. They can reflect on their own learning, evaluate their own performance and improve their performance in demonstrating specific learning, especially in how their role supports the wider team. Sharing learning with others, and seeking to promote best practice, is likely to warrant a distinction in addition to the other requirements of the Standard.

4. Reasonable adjustments

The EPAO must have in place clear and fair arrangements for making reasonable adjustments to the assessment method for the EPA for this apprenticeship standard. This should include how an apprentice qualifies for reasonable adjustments and what reasonable adjustments will be made. The adjustments must maintain the validity, reliability and integrity of the assessment methods outlined in this EPA plan.

5. Overall EPA grading

All EPA methods must be passed for the EPA to be passed overall.

To achieve a pass, the apprentice must achieve a pass in both assessment methods by achieving all pass criteria.

To achieve a distinction, the apprentice must achieve a distinction in both assessment methods by achieving all pass criteria and all distinction criteria.

Grades from individual assessment methods should be combined in the following way to determine the grade of the EPA as a whole:
6. Resits and Retakes

Apprentices who fail one or more assessment method will be offered the opportunity to take a re-sit or a re-take. A re-sit does not require further learning, whereas a re-take does.

Apprentices should have a supportive action plan to prepare for the re-sit or a re-take. The apprentice’s employer will need to agree that either a re-sit or re-take is an appropriate course of action.

An apprentice who fails an assessment method, and therefore the EPA in the first instance, will be required to re-sit or re-take any failed assessment methods only. If the apprentice fails the project proposal they will be required to amend the project proposal in line with the independent assessor’s feedback. The apprentice will be given 3 weeks to rework and submit the amended project proposal. If the apprentice fails the presentation, they will need to complete a new presentation.

Re-sits and re-takes are not offered to apprentices wishing to move from pass to distinction.

The timescales for a re-sit/re-take are agreed between the employer and EPAO. A re-sit is typically taken within 3 months of the EPA outcome notification. The timescale for a re-take is dependent on how much re-training is required and is typically taken within 6 months of
the EPA outcome notification. All assessment methods must be taken within a 6 month period, otherwise the entire EPA will need to be re-sat/re-taken.

Where any assessment method has to be re-sat or re-taken, the apprentice will be awarded a maximum EPA grade of pass, unless the EPAO determines there are exceptional circumstances requiring a re-sit or re-take.

7. Manageability & Feasibility

The approach to assessment is to encourage manageability and feasibility for organisations of all sizes, such as SMEs and corporates, as well as organisations in the public and third sectors. The combination of assessment methods has been decided by the employer group to be the most relevant, manageable and feasible. There has been consultation with representatives from training providers and end-point assessment organisations.

The following guidance is specifically intended to encourage manageability and feasibility:

- EPA is triggered when there is consensus between the apprentice, employer and training provider to progress, with the employer having the final decision
- all assessment methods can be completed online to promote options that are affordable and flexible for assessment:
  - the knowledge test is best taken online and should be impartially invigilated
  - e-portfolios are recommended to support progress of the apprentice being monitored by relevant parties, it also limits work being lost and encourages evidence of progress to be gathered throughout the apprenticeship
  - interviews and presentations can be taken online to encourage affordable assessment, suitability for employers of varying size and further evidencing learning outcomes. Either being taken online is optional.
- final agreement should be made on the day of last assessment, with notes, rationale and grading being kept for appropriate quality assurance

8. Affordability & Flexibility

The employer group estimates 3,000-5,000 total apprentice starts for Business Administrator Level 3 per annum, from their own organisations. The expected cost of EPA is estimated at 15% of the apprenticeship. The employer group have explored affordability and flexibility using their own organisations. Feedback and input from other employers, in addition to the consultation, has been encouraged by keeping a wider communication group.

9. End-Point Assessment Organisations (Internal Quality Assurance)

The independent end-point assessment organisation (EPAO) needs to be on the Education and Skills Funding Agency’s Register of End-point Assessment Organisations (RoEPAO). In carrying out assessment, the EPAO is responsible for reliable judgements being made at EPA and is to be overseen by the Institute for Apprenticeships and Technical Education for external quality assurance. The EPAO is responsible for internal quality assurance, with the following guidance given:

- the implementation of detailed marking criteria, clearly explaining how the knowledge, skills and behaviours can be exhibited to achieve a certain level
• production of exemplar materials, which can be used to add further clarity and establish guidelines for assessment against the stated criteria of the Standard
• standardised assessment through use of online methods and accurate reporting of other methods used, evidencing requirements and reaching reliable judgements
• standardisation meetings should be held at least every 12 months to encourage standardisation and moderation of assessment process
• assessors are able to deliver reliable assessment through effective use of systems
• consistent internal quality checks on assessors in evidencing learning outcomes

The EPA is designed to deliver valid assessment of the apprentice, in meeting knowledge, skills and behavioural requirements across the Standard. These should be demonstrated and evidenced to achieve valid judgement. It is the responsibility of the EPAO to have assessors with relevant functional and sector knowledge. This is in order to undertake valid assessments, in-line with defined requirements of being on the RoEPAO, and follow expected process to achieve a valid assessment.

Minimum requirements for the End-point Assessment Organisation

Knowledge and experience:
- Health and Safety requirements in the workplace
- Knowledge of organisational structure and processes
- Experience working in or managing administrative functions

Qualifications
- Functional Skills at Level 2
- IQA Assessor Award
- TAQA Level 3 Assessors Award is also advantageous

10. External Quality Assurance

The Institute for Apprenticeships and Technical Education is to be the body for External Quality Assurance.
Annex – Assessment Methods and Grading Criteria

The table below provides each of the Knowledge, Skills and Behaviours (KSBs) of the Standard with the assessment method to be used. For each of the KSBs, grading criteria are provided for Fail, Pass and Distinction. Each grading criterion is with the relevant KSBs set out below, for each Assessment Method. The End Point Assessment is a holistic assessment and the KSBs will be directly assessed and the independent assessor will document where they have been met. All criteria must be met to achieve a PASS in the Project Presentation and the Portfolio Interview. All criteria in both PASS and DISTINCTION must be met to achieve a DISTINCTION in the Project Presentation and the Portfolio Interview.

<table>
<thead>
<tr>
<th>Knowledge, Skills and Behaviour assessed</th>
<th>Description</th>
<th>Assessment method (Knowledge Test, Project Presentation or Portfolio Interview)</th>
<th>Fail: 59% or below</th>
<th>Pass: 60-79%</th>
<th>Distinction: 80 – 100%</th>
</tr>
</thead>
</table>
| Skills                                  | What is required (advancing key skills to support progression to management) | Portfolio interview / Project presentation | • Has not demonstrated they can use IT packages  
• Unable to provide quality examples of when they have used IT packages without mistakes | • Demonstrates they can use IT packages, specifically to write letters or emails, and to record and analyse information  
• Able to perform tasks relevant to their role using IT packages without supervision | • Consistently demonstrates they can use IT packages and can provide varied, quality examples  
• Able to perform tasks relevant to their role using IT packages and can coach others in using IT |
| IT                                      | Skilled in the use of multiple IT packages and systems relevant to the organisation in order to: write letters or emails, create proposals, perform financial processes, record and analyse data. Examples include MS Office or equivalent packages. Able to choose the most appropriate IT solution to suit the business problem. Able to update and review databases, record information and produce data analysis where required. | | | | |

Crown copyright 2020 You may re-use this information (not including logos) free of charge in any format or medium, under the terms of the Open Government Licence. Visit www.nationalarchives.gov.uk/doc/open-government-licence
| Record and document production | Produces accurate records and documents including: emails, letters, files, payments, reports and proposals. Makes recommendations for improvements and present solutions to management. Drafts correspondence, writes reports and able to review others' work. Maintains records and files, handles confidential information in compliance with the organisation’s procedures. Coaches others in the processes required to complete these tasks. | Portfolio interview | • Frequent mistakes in written documentation, requiring regular correction  
• Zero or very few workable recommendations are made  
• Communications not kept confidential | • Records are accurate, rarely require correction and are treated confidentially  
• Recommendations and solutions only need minor improvements  
• Supports others in producing documents and can provide examples | • Records are consistently accurate and confidential  
• Recommendations are insightful, clearly recorded and results in a clear benefit to the organisation  
• Provides coaching toothers and records good performance in feedback |
| --- | --- | --- | --- | --- | --- |
| Decision making | Exercises proactivity and good judgement. Makes effective decisions based on sound reasoning and is able to deal with challenges in a mature way. Seeks advice of more experienced team members when appropriate. | Project presentation | • Frequently makes poor decisions and does not learn from mistakes  
• Decision making is unreasoned  
• Reacts unprofessionally to feedback | • Decisions are thought through, using a range of information to make a sound judgement  
• Challenges appropriately and is polite when doing so  
• Exercises sound judgement when asking for advice by choosing the appropriate time, manner and person | • Decisions are timely and consistently show good judgement  
• Decisions are continuously made by thoughtfully considering different information and the risks of any action  
• Decisions are fully evidenced and justifiable  
• Consistently behaves and seeks advice in a mature way |
| Interpersonal skills | Builds and maintains positive relationships within their own team and across the organisation. Demonstrates ability to influence and challenge appropriately. Becomes a role model to peers and team members, developing coaching skills as they gain area knowledge. | Portfolio interview / Project presentation | • Does not work effectively with others  
• Does not exhibit role model behaviours  
• Does not seek to develop coaching skills | • Works effectively with a range of people  
• Influences and challenges peers when necessary  
• Supports others in the organisation and demonstrates coaching skills | • Influences managers as well as peers  
• Constructively challenges managers, as well as peers, when necessary  
• Proactively offers to coach others and has had good performance recorded in feedback |
|----------------------|-------------------------------------------------------------------------------------------------|---------------------------------------------|-----------------------------------------------|---------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| Communications       | Demonstrates good communication skills, whether face-to-face, on the telephone, in writing or on digital platforms. Uses the most appropriate channels to communicate effectively. Demonstrates agility and confidence in communications, carrying authority appropriately. Understands and applies social media solutions appropriately. Answers questions from inside and outside of the organisation, representing the organisation or department. | Portfolio interview / Project presentation | • Communication is unclear, either verbally or in writing  
• Chooses ineffective methods to communicate, e.g. social media for sensitive work-related information  
• Regularly leaves queries unresolved | • Demonstrates they can communicate clearly, in both written and verbal communication  
• Shows flexibility to different situations  
• Uses appropriate communication channels dependent on the subject matter  
• Demonstrates ability to answer queries effectively from both inside and outside the organisation | • Communication is consistently clear, both written and verbally  
• Champions an appropriate choice of communication channels  
• Consistently answers queries from both inside and outside of the organisation in a confident way |
| Quality              | Completes tasks to a high standard. Demonstrates the necessary level of expertise required to complete tasks and applies themselves to continuously improve their work. Is able to review processes autonomously and make | Portfolio interview | • Consistently makes mistakes in work that require correction | • Checks own work before submission and makes improvements | • Takes ownership for work and applies processes for checking work |
| Planning and organisation | Takes responsibility for initiating and completing tasks, manages priorities and time in order to successfully meet deadlines. Positively manages the expectations of colleagues at all levels and sets a positive example for others in the workplace. Makes suggestions for improvements to working practice, showing understanding of implications beyond the immediate environment (e.g. impact on clients, suppliers, other parts of the organisation). Manages resources e.g. equipment or facilities. Organises meetings and events, takes minutes during meetings and creates action logs as appropriate. Takes responsibility for logistics e.g. travel and accommodation. | Portfolio interview / Project presentation | • Does not plan work effectively  
• Ineffective at managing expectations and unrealistic when setting timescales  
• Does not demonstrate an awareness of the wider environment | • Plans work and achieves deadlines  
• Shares areas to improve plans with others  
• Effectively manages resources and meetings  
• Takes responsibility for logistics and can provide examples | • Makes plans that efficiently maximise resources and personally ensures results are achieved  
• Improves the management of resources e.g. identifies cost savings or process improvements  
• Is proactive in taking responsibility for areas of logistics and has excellent examples to demonstrate this |
