Introduction and overview

This document explains the requirements for end-point assessment (EPA) for the senior healthcare support worker apprentices. End-point assessment organisations (EPAOs) must follow this when designing and delivering their EPA.

Senior healthcare support worker apprentices, their employers and training providers should read this document.

An approved EPAO must conduct the EPA for this apprenticeship. Employers must select an approved EPAO from the Education and Skills Funding Agency's Register of end-point assessment organisations (RoEPAO).

A full-time apprentice typically spends 24 months on-programme (this means in training before the gateway) working towards competence as a senior healthcare support worker. All apprentices must spend at least 12 months on-programme. All apprentices must complete the required amount of off-the-job training specified by the apprenticeship funding rules.

The occupational standard for senior healthcare support worker contains 6 options:

Option 1 – Adult nursing support

Option 2 – Maternity support

Option 3 – Theatre support

Option 4 – Mental health support

Option 5 – Children and young people support

Option 6 – Allied health profession therapy support

An apprentice must be assessed against all of the Core KSBs plus all of the KSBs in the option which they are assigned to. An apprentice can only be assigned to and assessed on one of the six options.

This EPA has 2 assessment methods.

The grades available for each EPA method are:

Assessment method 1 - **observation of practice with questions:**

- fail
- pass

Assessment method 2 - **professional discussion underpinned by a portfolio of evidence:**

- fail
- pass
- distinction

The result from each EPA method is combined to decide the overall apprenticeship grade.

The following grades are available for the apprenticeship:

- fail
- pass
- distinction

EPA summary table

<p>On-programme (typically 24 months)</p>	<p>The apprentice must complete training to develop the knowledge, skills and behaviours (KSBs) of the occupational standard.</p> <p>The apprentice must complete training towards English and maths qualifications in line with the apprenticeship funding rules.</p> <p>The apprentice must complete training towards any other qualifications listed in the occupational standard.</p> <p>The qualification required is a:</p> <ul style="list-style-type: none"> • Level 3 Diploma in Healthcare Support <p>Compiling a portfolio of evidence.</p>

	<ul style="list-style-type: none">• fail• pass <p>Professional discussion underpinned by a portfolio of evidence</p> <ul style="list-style-type: none">• fail• pass• distinction <p>Overall EPA and apprenticeship can be graded:</p> <ul style="list-style-type: none">○ fail○ pass○ distinction
Re-sits and re-takes	<ul style="list-style-type: none">• Re-take and re-sit grade cap: pass• Re-sit timeframe: typically 3 months• Re-take timeframe: typically 6 months

Length of EPA period

The EPA will be completed within an EPA period lasting typically for 3 months, starting when the EPAO has confirmed that all gateway requirements have been met.

The expectation is that the EPAO will confirm the gateway requirements have been met and the EPA starts as quickly as possible.

EPA gateway

The apprentice's employer must confirm that they think the apprentice is working at or above the occupational standard as a senior healthcare support worker. They will then enter the gateway.

The employer may take advice from the apprentice's training provider(s), but the employer must make the decision.

Apprentices must meet the following gateway requirements before starting their EPA.

These are:

- achieved English and maths qualifications in line with the apprenticeship funding rules
- achieved a Level 3 Diploma in Healthcare Support

For the professional discussion underpinned by a portfolio of evidence, the apprentice will be required to submit a portfolio of evidence

The Portfolio of evidence requirements are as follows:

- Apprentices must compile a portfolio of evidence during the on-programme period of the apprenticeship
- It must contain evidence related to the KSBs that will be assessed by the professional discussion
- The portfolio of evidence will typically contain 10 discrete pieces of evidence (for example one against each of the five core grading themes and five against the grading theme of the option they are assigned to)
- Evidence may be used to demonstrate more than one KSB; a qualitative as opposed to quantitative approach is suggested. Evidence sources may include:
 1. Witness testimonials
 2. Written report of a case-based discussion
 3. Written report of supporting an intervention
 4. Clinical supervision reflection (relating to K20 and S20)
 5. Work-based observation

6. Evidence of ongoing professional development

7. Mapping document showing how the evidence provided meets the KSBs

- This is not a definitive list; other evidence sources are possible. Given the breadth of context and roles in which this occupation works, the apprentice will select the most appropriate evidence based on the context of their practice against the KSBs mapped to this method.
- The portfolio should not include reflective accounts or any methods of self-assessment except where evidencing K20 and S20
- Any employer contributions should focus on direct observation of performance (for example witness statements) rather than opinions
- The evidence provided must be valid and attributable to the apprentice; the portfolio of evidence must contain a statement from the employer and apprentice confirming this
- The portfolio of evidence must be submitted to the EPAO at the gateway

The portfolio is not directly assessed. It underpins the professional discussion assessment method and therefore should not be marked by the EPAO. EPAOs should review the portfolio of evidence in preparation for the professional discussion but are not required to provide feedback after this review of the portfolio.

Apprentices must submit any policies and procedures as requested by the EPAO.

The EPA period starts when the EPAO confirms all gateway requirements have been met. The expectation is they will do this as quickly as possible.

Assessment methods

The assessment methods can be delivered in any order.

The result of one assessment method does not need to be known before starting the next.

Observation of practice with questions

Overview

In an observation with questions, an independent assessor observes an apprentice in their workplace. The apprentice completes their day-to-day duties under normal working conditions. This allows the apprentice to demonstrate the KSBs shown in the mapping through naturally occurring evidence. The independent assessor asks questions as explained below. Simulation is not permitted during the observation.

The observation and responses to questions must be assessed holistically by the independent assessor when they are deciding the grade for the observation of practice.

Rationale

This EPA method is being used because:

- this is a practical role, best demonstrated through completing activities in a real work setting
- observation makes use of employer resources and equipment, which will be familiar to the apprentice and thus allow them to perform at their best
- questioning allows for the assessment of the breadth and depth of underpinning knowledge against the grading descriptors
- tasks completed during the observation should contribute to workplace productivity and are valid
- it is a holistic assessment method

Delivery

The observation of practice with questions must be structured to give the apprentice the opportunity to demonstrate the KSBs mapped to this EPA method to the highest available grade.

The independent assessor must only observe one apprentice to ensure quality and rigour and they must be as unobtrusive as possible.

The EPAO must give an apprentice 2 weeks' notice of the observation.

The observation must take 2 hours.

The independent assessor can increase the time of the observation by up to 10%. This time is to allow the apprentice to complete a task or respond to a question if necessary. The observation and questioning must allow the apprentice the opportunity to demonstrate the KSBs at the highest possible grade.

The observation may be split into discrete sections held on the same working day.

EPAOs must manage invigilation of apprentices at all times to maintain security of the EPA, in line with their malpractice policy. This includes breaks and moving between locations.

The independent assessor must explain to the apprentice the format and timescales of the observation before it begins. This does not count towards the assessment time.

The independent assessor should observe the following during the observation:

Core:

- Providing care and support to individuals as part of the multi-disciplinary team
- Communicating in a way that facilitates understanding
- Maintaining the health and safety of the workplace, individuals, colleagues and themselves through safe work practices
- Adhering to protocols relevant to their role, the service or intervention they are providing and the organisation they are working in

Options:

Option 1 – Adult nursing support

Option 2 – Maternity support

Option 3 – Theatre support

Option 4 – Mental health support

Option 5 – Children and young people support

Option 6 – Allied health profession therapy support

These activities provide the apprentice with the opportunity to demonstrate the KSBs as shown in the mapping.

Questions must be asked after the observation. The total duration of the observation assessment method is 2 hours, and the time for questioning included in the overall

assessment time is 30 minutes. The total time for the observation element is 90 minutes.

The independent assessor must ask at least 4 questions. Follow-up questions are allowed. The independent assessor must use the questions from the EPAO's question bank or create their own questions in-line with the EPAO's training.

The independent assessor must ask questions about KSBs that were not observed to gather assessment evidence. The independent assessor can also ask questions to clarify answers given by the apprentice.

The independent assessor can increase the time of the observation by up to 10%. This time is to allow the apprentice to respond to a question if necessary. The observation and questioning must allow the apprentice the opportunity to demonstrate the KSBs at the highest possible grade.

The independent assessor conducts and assesses the observation of practice with questions. They must record the KSBs observed, KSBs demonstrated in answers to questions and the grade achieved. The apprentice's answers to questions must also be recorded.

The independent assessor makes all grading decisions.

Assessment location

The observation of practice with questions must take place in the apprentice's normal place of work (for example their employer's premises or a customer's premises). Equipment and resources needed for the observation must be provided by the employer and be in good working condition.

Questioning that occurs after the observation should take place in a quiet room, free from distractions and influence.

Question and resource development

EPAOs must write an assessment specification and question bank. The specification must be relevant to the occupation and demonstrate how to assess the KSBs shown in the mapping. It is recommended this is done in consultation with employers of this occupation. EPAOs should maintain the security and confidentiality of EPA materials when consulting employers. The questions must be unpredictable. A question bank of sufficient size will support this. The assessment specification and questions must be reviewed at least once a year to ensure they remain fit-for-purpose.

EPAOs will develop purpose-built question banks and ensure that appropriate quality assurance procedures are in place, for example, considering standardisation, training and moderation. EPAOs will ensure that questions are refined and developed to a high standard.

EPAOs must ensure that apprentices have a different set of questions in the case of re-sits or re-takes.

EPAOs must produce the following materials to support the observation of practice with questions:

- independent assessor training materials which include:
 - training materials
 - administration materials
 - moderation and standardisation materials
 - guidance materials
 - grading guidance
 - question bank
- EPA guidance for the apprentice and employer

Professional discussion underpinned by a portfolio of evidence

Overview

In the professional discussion, an independent assessor and apprentice have a formal two-way conversation. It gives the apprentice the opportunity to demonstrate their competency across the KSBs as shown in the mapping.

Rationale

This EPA method is being used because:

- it allows for assessment of knowledge, skills and behaviours that do not occur on a predictable or regular basis
- it allows for assessment of responses where there are a range of potential answers that cannot be tested through the observation
- it can be conducted remotely, potentially reducing cost
- a professional discussion is a well-recognised method of checking knowledge, skills and behaviours and is widely used within the health sector

Delivery

The professional discussion must be structured to give the apprentice the opportunity to demonstrate the KSBs mapped to this EPA method to the highest available grade.

The purpose of the independent assessor's questions will be to assess the depth of the apprentice's understanding of the KSBs.

For the professional discussion, the independent assessor must ask at least 10 questions, one against each of the five core grading themes and five against the option the apprentice is assigned to. The independent assessor must use the questions from the EPAO's question bank or create their own questions in-line with the EPAO's

training.

The EPAO must give an apprentice 2 weeks' notice of the professional discussion. The independent assessor must have at least 2 weeks to review the supporting documentation.

Apprentices must have access to their portfolio of evidence during the professional discussion.

Apprentices can refer to and illustrate their answers with evidence from their portfolio of evidence, however the portfolio of evidence is not directly assessed.

The professional discussion must last for 60 minutes. The independent assessor can increase the time of the professional discussion by up to 10%. This time is to allow the apprentice to respond to a question if necessary.

The professional discussion must allow the apprentice the opportunity to demonstrate the KSBs mapped to this EPA method at the highest possible grade.

The independent assessor conducts and assesses the professional discussion.

The independent assessor must keep accurate records of the assessment. The records must include the KSBs met, the grade achieved and answers to questions.

The independent assessor will make all grading decisions.

Assessment location

The professional discussion must take place in a suitable venue selected by the EPAO (for example the EPAO's or employer's premises).

The professional discussion can be conducted by video conferencing. The EPAO must have processes in place to verify the identity of the apprentice and ensure the apprentice is not being aided.

The professional discussion should take place in a quiet room, free from distractions and influence.

Question and resource development

EPAOs must write an assessment specification and question bank. The specification must be relevant to the occupation and demonstrate how to assess the KSBs shown in the mapping. It is recommended this is done in consultation with employers of this occupation. EPAOs should maintain the security and confidentiality of EPA materials when consulting employers. The questions must be unpredictable. A question bank of sufficient size will support this. The assessment specification and questions must be reviewed at least once a year to ensure they remain fit-for-purpose.

EPAOs will develop purpose-built question banks and ensure that appropriate quality assurance procedures are in place. For example, considering standardisation,

training and moderation. EPAOs will ensure that questions are refined and developed to a high standard.

EPAOs must ensure that apprentices have a different set of questions in the case of re-sits or re-takes.

EPAOs must produce the following materials to support the professional discussion underpinned by a portfolio of evidence:

- independent assessor training materials which include:
 - training materials
 - administration materials
 - moderation and standardisation materials
 - guidance materials
 - grading guidance
 - question bank
- EPA guidance for the apprentice and employer

Overall EPA grading

The EPA methods contribute equally to the overall EPA grade. Performance in the EPA will determine the apprenticeship grade of:

- fail
- pass
- distinction

Independent assessors must individually grade the: observation of practice and professional discussion underpinned by a portfolio of evidence according to the requirements set out in this EPA plan.

EPAOs must combine the individual assessment method grades to determine the overall EPA grade.

Apprentices who fail one or more assessment method will be awarded an overall EPA fail.

Apprentices must achieve at least a pass in all the EPA methods to get an overall pass. In order to achieve an overall EPA 'distinction', apprentices must achieve a pass in the observation of practice and a distinction in the professional discussion.

Grades from individual assessment methods should be combined in the following way to determine the grade of the EPA as a whole.

OBSERVATION OF PRACTICE WITH QUESTIONS	PROFESSIONAL DISCUSSION UNDERPINNED BY A PORTFOLIO OF EVIDENCE	OVERALL GRADING
Fail	Any grade	Fail
Any grade	Fail	Fail
Pass	Pass	Pass
Pass	Distinction	Distinction

Re-sits and re-takes

Apprentices who fail one or more EPA method(s) can take a re-sit or a re-take at the employer's discretion. The apprentice's employer needs to agree that a re-sit or re-take is appropriate. A re-sit does not need further learning, whereas a re-take does.

Apprentices should have a supportive action plan to prepare for a re-sit or a re-take.

The employer and EPAO agree the timescale for a re-sit or re-take. A re-sit is typically taken within 3 months of the EPA outcome notification. The timescale for a re-take is dependent on how much re-training is required and is typically taken within 6 months of the EPA outcome notification. The timescale for a re-take is dependent on how much re-training is required and is typically taken within 6 months of the EPA outcome notification.

Failed EPA methods must be re-sat or re-taken within a 6-month period from the EPA outcome notification, otherwise the entire EPA will need to be re-sat or re-taken in full.

Re-sits and re-takes are not offered to apprentices wishing to move from pass to a higher grade.

An apprentice will get a maximum EPA grade of pass for a re-sit or re-take, unless the EPAO determines there are exceptional circumstances.

Roles and responsibilities

ROLES	RESPONSIBILITY
Apprentice	<p>As a minimum, apprentices should:</p> <ul style="list-style-type: none"> • participate in and complete on-programme training to meet the KSBs as outlined in the occupational standard for a minimum of 12 months • complete the required amount of off-the-job training specified by the apprenticeship funding rules and as arranged by the employer and training provider • understand the purpose and importance of EPA • undertake the EPA including meeting all gateway requirements.
Employer	<p>As a minimum, employers must:</p> <ul style="list-style-type: none"> • select the EPAO and training provider • work with the training provider (where applicable) to support the apprentice in the workplace and to provide the opportunities for the apprentice to develop the KSBs • arrange and support off-the-job training to be undertaken by the apprentice • decide when the apprentice is working at or above the level required by the occupational standard and so is ready for EPA • ensure that all supporting evidence required at the gateway is submitted in accordance with this EPA plan • remain independent from the delivery of the EPA • confirm arrangements with the EPAO for the EPA (who, when, where) in a timely manner (including providing access to any employer-specific documentation as required, for example company policies) • ensure that the EPA is scheduled with the EPAO for a date and time which allows appropriate opportunity for the apprentice to meet the KSBs • ensure the apprentice is well prepared for the EPA • require the training provider and EPAO to ensure the EPA is booked in a timely manner <p>Post-gateway, employers must:</p>

ROLES	RESPONSIBILITY
	<ul style="list-style-type: none"> • confirm arrangements with the EPAO for the EPA (who, when, where) in a timely manner (including providing access to any employer-specific documentation as required, for example company policies) • ensure that the EPA is scheduled with the EPAO for a date and time which allows appropriate opportunity for the KSBs to be met • remain independent from the delivery of the EPA • ensure the apprentice is given sufficient time away from regular duties to prepare for, and complete all post-gateway elements of the EPA, and that any required supervision during this time (as stated within this EPA plan) is in place • where the apprentice is assessed in the workplace, ensure that the apprentice has access to the resources used on a daily basis • pass the certificate to the apprentice upon receipt from the EPAO.
EPAO	<p>As a minimum, EPAOs must:</p> <ul style="list-style-type: none"> • conform to the requirements of this EPA plan and deliver its requirements in a timely manner • conform to the requirements of the Register of End-Point Assessment Organisations (RoEPAO) • conform to the requirements of the external quality assurance provider (EQAP) for this apprenticeship standard • understand the occupational standard • make all necessary contractual arrangements, including agreeing the price of the EPA • develop and produce assessment materials including specifications and marking materials (for example mark schemes, practice materials, training material) • appoint suitably qualified and competent independent assessors and oversee their work • appoint administrators (and invigilators where required) to administer the EPA as appropriate • provide training for independent assessors in terms of good assessment practice, operating the assessment tools and grading

ROLES	RESPONSIBILITY
	<ul style="list-style-type: none"> • provide adequate information, advice and guidance documentation to enable apprentices, employers and training providers to prepare for the EPA • arrange for the EPA to take place, in consultation with the employer • where the apprentice is not assessed in the workplace, ensure that the apprentice has access to the required resources and liaise with the employer to agree this if necessary • develop and provide appropriate assessment recording documentation to ensure a clear and auditable process is in place for providing assessment decisions and feedback to all relevant stakeholders • have no direct connection with the apprentice, their employer or training provider. In all instances, including when the EPAO is the training provider (i.e. HEI), there must be no conflict of interest • have policies and procedures for internal quality assurance (IQA), and maintain records of regular and robust IQA activity and moderation for external quality assurance (EQA) purposes • deliver induction training for independent assessors, and for invigilators and/or markers (where used) • undertake standardisation activity on this apprenticeship standard for all independent assessors before they conduct an EPA for the first time, if the EPA is updated and periodically as appropriate (a minimum of annually) • manage invigilation of apprentices in order to maintain security of the assessment in line with the EPAO's malpractice policy • verify the identity of the apprentice being assessed • use language in the development and delivery of the EPA that is appropriate to the level of the occupational standard <p>Pre-gateway, EPAOs must:</p> <ul style="list-style-type: none"> • make all necessary contractual arrangements, including agreeing the price of the EPA • provide adequate information, advice and guidance documentation to enable apprentices, employers and training providers to prepare for the EPA

ROLES	RESPONSIBILITY
	<ul style="list-style-type: none"> • arrange for the EPA to take place, in consultation with the employer. <p>At the Gateway, EPAOs must:</p> <ul style="list-style-type: none"> • confirm all gateway requirements have been met as quickly as possible. <p>Post-gateway, EPAOs must:</p> <ul style="list-style-type: none"> • where the apprentice is not assessed in the workplace, ensure that the apprentice has access to the required resources and liaise with the employer to agree this if necessary
Independent assessor	<p>As a minimum, independent assessors must:</p> <ul style="list-style-type: none"> • have the competence to assess the apprentice at this level and hold any required qualifications and experience in line with the requirements of the independent assessor as detailed in the IQA section of this EPA plan • understand the occupational standard and the requirements of this EPA • have, maintain and be able to evidence, up-to-date knowledge and expertise of the subject matter • deliver the end-point assessment in-line with the EPA plan • comply with the IQA requirements of the EPAO • have no direct connection or conflict of interest with the apprentice, their employer or training provider; in all instances, including when the EPAO is the training provider (i.e. HEI) • attend induction training • attend standardisation events when they begin working for the EPAO, before they conduct an EPA for the first time and a minimum of annually on this apprenticeship standard • assess each assessment method, as determined by the EPA plan, and without extending the EPA unnecessarily • assess against the KSBs assigned to each assessment method, as shown in the mapping of assessment methods and as determined by the EPAO, and without extending the EPA unnecessarily • make all grading decisions

ROLES	RESPONSIBILITY
	<ul style="list-style-type: none"> • record and report all assessment outcome decisions, for each apprentice, following instructions and using assessment recording documentation provided by the EPAO, in a timely manner • use language in the development and delivery of the EPA that is appropriate to the level of the occupational standard • mark open (constructed) test answers accurately according to the EPAO's mark scheme and procedures.
Training provider	<p>As a minimum, training providers should:</p> <ul style="list-style-type: none"> • work with the employer and support the apprentice during the off-the-job training to provide the opportunities to develop the knowledge, skills and behaviours as listed in the occupational standard • conduct training covering any knowledge, skill or behaviour requirement agreed as part of the Commitment Statement (often known as the Individual Learning Plan). • monitor the apprentice's progress during any training provider led on-programme learning • advise the employer, upon request, on the apprentice's readiness for EPA • remain independent from delivery of the EPAO. Where the training provider is the EPA (i.e. a HEI) there must be procedures in place to mitigate against any conflict of interest.

Reasonable adjustments

The EPAO must have reasonable adjustments arrangements for the
This should include:

- how an apprentice qualifies for reasonable adjustment
- what reasonable adjustments may be made

Adjustments must maintain the validity, reliability and integrity of the EPA as outlined in this EPA plan.

Internal quality assurance (IQA)

Internal quality assurance refers to how EPAOs ensure valid, consistent and reliable EPA decisions. EPAOs must adhere to the requirements within the roles and responsibilities section and:

- have effective and rigorous quality assurance systems and procedures that ensure fair, reliable and consistent EPA regardless of employer, place, time or independent assessor
- appoint independent assessors who are competent to deliver the EPA and who:
 - have recent relevant experience of the occupation or sector to at least occupational level 3 gained in the last 5 years or significant experience of the occupation or sector
 - meet the following minimum requirements:
 - be occupationally competent against the standard
 - keep up to date with continuing professional development (CPD)
- operate induction training for anyone involved in the delivery and/or assessment of the EPA
- provide training for independent assessors in good assessment practice, operating the assessment tools and making grading decisions
- provide ongoing training for markers and invigilators

- provide standardisation activity for this apprenticeship standard for all independent assessors:
 - before they conduct an EPA for the first time
 - if the EPA is updated
 - periodically as appropriate (a minimum of annually)
- conduct effective moderation of EPA decisions and grades
- conduct appeals where required, according to the EPAO's appeals procedure, reviewing and making final decisions on EPA decisions and grades
- have no direct connection with the apprentice, their employer or training provider. In all instances, including when the EPAO is the training provider (for example a higher education institution)

Value for money

Affordability of the EPA will be aided by using at least some of the following:

- utilising digital remote platforms to conduct applicable assessment methods
- using the employer's premises

Professional recognition

Professional body recognition is not relevant to this occupational apprenticeship.

Mapping of KSBs to assessment methods

KNOWLEDGE	ASSESSMENT METHODS
<p>K1: Core. Core: The legislation, policies, standards, local ways of working and codes of conduct that apply to own role</p>	<p>Observation of practice with questions</p>
<p>K2: Core. Core: The scope of practice, limitations of own competence, including limitations of own role in relation to medication and who to ask for support</p>	<p>Observation of practice with questions</p>
<p>K3: Core. Core: The principles of 'person-centred care and support', including principles of equality, diversity and inclusion, active participation, consent and choice</p>	<p>Observation of practice with questions</p>
<p>K4: Core. Core: The principles of a 'duty of care' and 'safeguarding', the signs of abuse and ways to reduce the risk of abuse</p>	<p>Observation of practice with questions</p>
<p>K5: Core. Core: National and local definitions of health and well-being and priorities for promoting public health and reducing inequalities</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K6: Core. Core: The availability of services to support individuals with lifestyle choices and how to make a referral if required</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K7: Core. Core: The signs and symptoms that an individual's health and wellbeing is changing, including the role of prescribed medication</p>	<p>Observation of practice with questions</p>
<p>K8: Core. Core: The signs and symptoms that an individual is in pain, distress or discomfort</p>	<p>Observation of practice with questions</p>
<p>K9: Core. Core: The principles of hydration, nutrition and food safety</p>	<p>Observation of practice with questions</p>

<p>K10: Core. Core: Communication techniques to maximise understanding including for individuals with specific communication needs or wishes</p>	<p>Observation of practice with questions</p>
<p>K11: Core. Core: The meaning of 'capacity', the differences between mental illness, dementia and learning disability and the impact of these conditions on an individual's needs</p>	<p>Observation of practice with questions</p>
<p>K12: Core. Core: The principles of infection prevention and control and the importance of good personal hygiene, hand hygiene and correct use of personal protective equipment (PPE)</p>	<p>Observation of practice with questions</p>
<p>K13: Core. Core: Local systems and processes to manage the supply, storage, use and safe disposal of stocks and supplies</p>	<p>Observation of practice with questions</p>
<p>K14: Core. Core: The principles of safe moving and assisting individuals, and moving and handling equipment</p>	<p>Observation of practice with questions</p>
<p>K15: Core. Core: The meaning of 'risk' in the workplace, ways to raise concerns and own responsibilities in relation to incidents, errors and near misses</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K16: Core. Core: Techniques and principles to safely perform basic life support</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K17: Core. Core: The common causes of conflict and how to respond to them in the workplace</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K18: Core. Core: The importance of continuing personal and professional development</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K19: Core. Core: The local arrangements for appraisal of performance in the workplace</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>

<p>K20: Core. Core: The principles of reflective practice</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K21: Core. Core: Ways to record and store information securely, including the safe use of technology</p>	<p>Observation of practice with questions</p>
<p>K22: Core. Core: The principles of confidentiality, duty of confidence and disclosure</p>	<p>Observation of practice with questions</p>
<p>K23: Core. Core: The principles of 'quality improvement' and ways to measure quality in the workplace</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K24: Core. Core: The principles of investigatory techniques, research and evidence-based practice, and how to access existing evidence and use it to validate and improve practice</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K25: Core. Core: The principles of critical thinking and methods of critical appraisal</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K26: Core. Core: The principles and styles of leadership in relation to own role and place of work</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K27: Core. Core: The relationship and differences between leadership, management, supervision and mentoring</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K28: Core. Core: The physiological states, their normal ranges and the correct tools or equipment to use to measure them</p>	<p>Observation of practice with questions</p>
<p>K29: Adult Nursing Support, Children and Young People Support. Options 1, 5: Adult Nursing Support, Children and Young People Support: The activities of daily living and ways to support individuals to develop and maintain their independence in carrying out these activities</p>	<p>Observation of practice with questions</p>

<p>K30: Adult Nursing Support, Maternity Support, Children and Young People Support. Options 1, 2, 5: Adult Nursing Support, Maternity Support, Children and Young People Support: The structure and function of the skin and underlying tissues and factors that lead to tissues being compromised</p>	<p>Observation of practice with questions</p>
<p>K31: Adult Nursing Support, Children and Young People Support. Options 1, 5: Adult Nursing Support, Children and Young People Support: The principles of wound management and the equipment and materials that are used to treat wounds</p>	<p>Observation of practice with questions</p>
<p>K32: Adult Nursing Support, Maternity Support, Children and Young People Support. Options 1, 2, 5: Adult Nursing Support, Maternity Support, Children and Young People Support: Methods for taking and testing specimens</p>	<p>Observation of practice with questions</p>
<p>K33: Adult Nursing Support, Maternity Support, Children and Young People Support. Options 1, 2, 5: Adult Nursing Support, Maternity Support, Children and Young People Support: The end of life phase and the factors which impact care during the end of life phase</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K34: Adult Nursing Support, Maternity Support, Children and Young People Support, Allied Health Profession Therapy Support. Options 1, 2, 5, 6: Adult Nursing Support, Maternity Support, Children and Young People Support, Allied Health Profession Therapy Support: Local systems for discharge and transfer and the availability of services and agencies offered by the wider health and social care system</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K35: Adult Nursing Support, Maternity Support, Mental Health Support, Children and Young People Support. Options 1, 2, 4, 5: Adult Nursing Support, Maternity Support, Mental Health Support, Children and Young People Support: The signs and symptoms that indicate an individual's physical or mental health and wellbeing are deteriorating</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K36: Adult Nursing Support. Option 1: Adult Nursing Support: How to support adults to take responsibility for their own health and wellbeing</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>

<p>K37: Maternity Support. Option 2: Maternity Support: Strategies to engage women and carers in feeding, bathing, parenting and self-care such as antenatal and postnatal exercise</p>	<p>Observation of practice with questions</p>
<p>K38: Maternity Support. Option 2: Maternity Support: Local and national antenatal and newborn screening services and immunisation programmes</p>	<p>Observation of practice with questions</p>
<p>K39: Maternity Support. Option 2: Maternity Support: Local systems and protocols to maintain the maternity environment including procedures to maintain the supply of resources, instruments and equipment</p>	<p>Observation of practice with questions</p>
<p>K40: Maternity Support. Option 2: Maternity Support: The purpose of a urethral catheter and the importance of regular monitoring</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K41: Maternity Support. Option 2: Maternity Support: Local security procedures for women and babies including systems for woman and baby identification</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K42: Maternity Support. Option 2: Maternity Support: The routine checks and observations undertaken for a healthy baby such as cord care, eye care, oral hygiene, stools and signs of neo-natal jaundice</p>	<p>Observation of practice with questions</p>
<p>K43: Maternity Support. Option 2: Maternity Support: The nutritional and hygiene needs of babies, the benefits of different feeding methods and the importance of skin to skin contact in bonding</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K44: Maternity Support. Option 2: Maternity Support: The principles of supporting families at difficult times, bereavement and loss and the availability of other support services</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K45: Maternity Support. Option 2: Maternity Support: The scope of their own role in an emergency situation during pregnancy, labour, birth or the postnatal period</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>

<p>K46: Theatre Support. Option 3: Theatre Support: Local systems and protocols for completing pre and post-operative checklists</p>	<p>Observation of practice with questions</p>
<p>K47: Theatre Support. Option 3: Theatre Support: The principles of asepsis and maintenance of the sterile field in relation to the provision of surgical instrumentation and medical devices to the surgical team</p>	<p>Observation of practice with questions</p>
<p>K48: Theatre Support. Option 3: Theatre Support: Local systems and protocols for team briefing, patient sign in, timeout, sign out and debriefing</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K49: Theatre Support. Option 3: Theatre Support: The effects of pre-medication, sedation and anaesthesia on individuals</p>	<p>Observation of practice with questions</p>
<p>K50: Theatre Support. Option 3: Theatre Support: The purpose for recording an individual's body fluid and factors that affect input, output and wound drainage</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K51: Theatre Support. Option 3: Theatre Support: Techniques used in the peri-operative environment to position individuals and specialist equipment for before, during and after surgery</p>	<p>Observation of practice with questions</p>
<p>K52: Theatre Support. Option 3: Theatre Support: The types, purpose and function of surgical instruments and supplementary items used in theatre such as the cost implications of items used and the impact on the commissioning of surgical procedures</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K53: Theatre Support. Option 3: Theatre Support: The importance of identification, measurement, accounting for and recording swabs, sharps, instruments or other disposable items used and the actions to take if one is missing</p>	<p>Observation of practice questions</p>
<p>K54: Theatre Support. Option 3: Theatre Support: Types and uses of containers for transport, procedures for labelling, handling, dispatching recording and reporting for clinical specimens and blood products</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>

<p>K55: Mental Health Support. Option 4: Mental Health Support: The nature of mental health and well-being and the main forms of mental ill health according to the psychiatric International Classification of Diseases and Diagnostic and Statistical Manual of Mental Disorders (DSM/ICD) classification system</p>	<p>Observation of practice with questions</p>
<p>K56: Mental Health Support. Option 4: Mental Health Support: The main interventions in mental health and well-being and the benefits of early intervention</p>	<p>Observation of practice with questions</p>
<p>K57: Mental Health Support. Option 4: Mental Health Support: The needs of individuals with mental ill health and those supporting them at key stages and through times of change or transition</p>	<p>Observation of practice with questions</p>
<p>K58: Mental Health Support. Option 4: Mental Health Support: Techniques used to build, monitor and sustain therapeutic relationships with individuals, carers and their families</p>	<p>Observation of practice with questions</p>
<p>K59: Mental Health Support. Option 4: Mental Health Support: The factors that facilitate an individual's recovery experience</p>	<p>Observation of practice with questions</p>
<p>K60: Mental Health Support. Option 4: Mental Health Support: The impact of the individual's mental ill-health on their life, family, friendships and active participation in society</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K61: Mental Health Support. Option 4: Mental Health Support: Risk factors of harm to self or others, a range of triggers and consideration of the impact of the environment</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K62: Mental Health Support. Option 4: Mental Health Support: Prevention and risk reduction strategies which involve the individual and others, such as suicide mitigation, behaviours which challenge, substance misuse and self-neglect and reduction of restrictive practices</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>

<p>K63: Mental Health Support. Option 4: Mental Health Support: The importance of own mental health and wellbeing when working in mental health services</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K64: Children and Young People Support. Option 5: Children and Young People Support: Principles and techniques to engage children and young people in therapeutic play</p>	<p>Observation of practice with questions</p>
<p>K65: Children and Young People Support. Option 5: Children and Young People Support: The main life transitions for children and young people and the importance of involving the child or young person in their own care in line with legal policy and service frameworks for children and young people</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K66: Children and Young People Support. Option 5: Children and Young People Support: The importance of family-centred care and the role of the public health agenda in promoting and protecting the health and wellbeing of children and young people, to include looked-after children and young carers</p>	<p>Observation of practice with questions</p>
<p>K67: Children and Young People Support. Option 5: Children and Young People Support: The expected physical, cognitive, language, emotional, social and developmental milestones, the tools and equipment to measure and assess them and how to adapt practice to meet additional needs</p>	<p>Observation of practice with questions</p>
<p>K68: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: The care planning process and therapeutic strategies used within own role to promote and enable independence, self- management, social integration, recovery and skills for everyday life</p>	<p>Observation of practice with questions</p>
<p>K69: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: Local systems for undertaking clinical risk assessments and management plans relevant to own work setting</p>	<p>Observation of practice with questions</p>

<p>K70: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: The potential impact of mental and physical capacity, health condition, learning disability or overall wellbeing on therapeutic or clinical interventions</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K71: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: Strategies and approaches to rehabilitate or maximise an individual's function</p>	<p>Observation of practice with questions</p>
<p>K72: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: Strategies and tools available to engage individuals or communities in group sessions</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K73: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: Activities and resources available within the community and the means to access them</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K74: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: Local systems for sourcing, ordering and fitting therapeutic equipment and resources and the criteria for provision</p>	<p>Observation of practice with questions</p>
<p>K75: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: The purpose and function of the therapeutic equipment and resources available, including its limitations and contra- indications</p>	<p>Observation of practice with questions</p>
<p>K76: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: Strategies and tools available to engage individuals in learning how to use therapeutic equipment and resources</p>	<p>Professional discussion underpinned by a portfolio of evidence</p>
<p>K77: Allied Health Profession Therapy Support. Option 6: Allied Health Profession Therapy Support: Protocols for checking, reporting and adapting therapeutic equipment and resources</p>	<p>Observation of practice with questions</p>

SKILL	ASSESSMENT METHODS
S1: Core. Core: Work in line with legislation, policies, standards, local ways of working and codes of conduct that apply to own role	Observation of practice with questions
S2: Core. Core: Work within the scope of practice, the limits of own knowledge and skills, escalating and reporting to others when needed	Observation of practice with questions
S3: Core. Core: Work as part of a multi-disciplinary team to provide safe and non-discriminatory person-centred care and support with individuals' established consent	Observation of practice with questions
S4: Core. Core: Implement a duty of care, recognising and responding to safeguarding and protection concerns and acting in the best interest of individuals to ensure they do not come to harm	Observation of practice with questions
S5: Core. Core: Support individuals to make informed and positive lifestyle choices	Professional discussion underpinned by a portfolio of evidence
S6: Core. Core: Actively seek out and act on opportunities to support individuals to maximise their health, well-being and positive lifestyle choices	Professional discussion underpinned by a portfolio of evidence
S7: Core. Core: Recognise and respond to changes in an individual's health and wellbeing	Observation of practice with questions
