Introduction and overview

Dietitians are subject to statutory regulation by the Health and Care Professions Council (HCPC). The HCPC sets the standards of proficiency required for entry to the professional register and these are the occupational standards for registered Dietitians. The HCPC also has the statutory duty to set requirements of programmes necessary to support the achievement of the knowledge, skills and behaviours (KSBs) set out in the standards of proficiency and the KSBs in the occupational standard. The apprenticeship standard and the delivery of the apprentices training must be aligned to all relevant HCPC standards to ensure that apprentices are eligible for entry to the HCPC register on completion. It is against the law for anyone to work as a Dietitian without being registered with the HCPC. The end-point assessment (EPA) assesses whether apprentices have also passed the apprenticeship and is based on the same professional knowledge, skills and behaviours as the occupational standard.

This document sets out the requirements for EPA for the Dietitian statutory integrated apprenticeship standard. It is for the end-point assessment organisations (EPAO), that must be an HCPC Approved Education Provider, who need to know how EPA for this apprenticeship must operate. It will also be of interest to apprentices, their employers and HCPC Approved Education Providers.

Apprentices will typically spend 48 months on-programme working towards the occupational standard.

The EPA period should only start, and the EPA be arranged, once the employer and HCPC Approved Education Provider are satisfied that the apprentice is consistently working at or above the level set out in the occupational standard and all of the pre-requisite gateway requirements for EPA have been met. It is expected that the gateway will be reached on completion of the final module and before the Approved Education Provider's examination board.

The apprentice must have achieved English and maths qualifications in line with the apprenticeship funding rules.

The EPA period is expected to last a maximum of 1 month beginning when the apprentice has passed the EPA gateway.

The EPA will determine the overall apprenticeship standard and grades of:

- fail
- pass

This apprenticeship has a statutory integrated EPA. The EPA will use the assessment arrangements in use for other entry routes into this occupation and will be completed simultaneously, as outlined in this EPA plan. Alignment of the integrated EPA is permitted because the following criteria are met:

1. Parliament has prescribed that the occupation (profession) must be regulated and a statutory regulator has undisputed control of access to the occupation.

2. The statutory integrated EPA meets the requirements of an apprenticeship.

<tr>
<th>On-programme</th>
<th>Training to develop the occupation standards knowledge, skills and behaviours (aligned to the HCPC standards of proficiency for Dietitian 2022)</th>
</tr>
</thead>
</table>
| End-point assessment gateway | • Apprentice has met the knowledge, skills and behaviours  
• Employer and HCPC Approved Education Provider are satisfied the apprentice has consistently demonstrated they meet the KSBs of the occupational standard.  
• Achieved all required modules from one of the following:  
  • BSc (Hons) Degree in Dietetics or Level 7 qualification approved by HCPC and accredited by the British Dietetic Association  
  • The apprentice must have achieved English and maths qualifications in line with the apprenticeship funding rules.  
  • Achieved all required modules, taking into account any recognition of prior learning (RPL) of the Dietetics qualification but before the Approved Education Provider’s examination board  
  • Practice Assessment Document completed and signed-off by their practice and academic assessor |
| End-point assessment (which would typically take place within 1 month) | The EPA starts with the examination board and finishes when the Approved Education Provider submits the required documentation to HCPC. The apprentice is not required to carry out any additional assessments.  
• Consideration by the examination board and notice of the decision of pass/fail to HCPC  
• Apprentice separately applies for registration once awarded the pass |
| Professional recognition | Registration with:  
Health and Care Professions Council  
British Dietetic Association for Full member |
Gateway

The EPA period should only start once the employer and the HCPC Approved Education Provider are satisfied that the apprentice is consistently working at or above the level set out in the occupational standard.

The EPA starts with the examination board and finishes when the Approved Education Provider:

- makes a decision on pass and fail
- the Approved Education Provider emails a secure pass list to HCPC which includes required personal details of apprentices who have received a pass

The apprentice separately applies for registration once they have achieved a pass.

HCPC use the pass list to verify successful completion of the apprenticeship programme. The apprentice must have completed and achieved the following gateway requirements prior to beginning EPA:

- Achieved all required modules from one of the following:
  - BSc (Hons) Degree in Dietetics or Level 7 qualification approved by HCPC and accredited by the British Dietetic Association
  - The apprentice must have achieved English and maths qualifications in line with the apprenticeship funding rules.

Apprentices must complete all required modules, taking into account any recognised prior learning, of the following approved qualification, as mandated in the occupational standard:

- BSc (Hons) Degree in Dietetics or Level 7 qualification approved by HCPC and accredited by the British Dietetic Association

The apprentice will also have successfully completed a Practice Assessment Document and this will have been signed-off by their practice and academic assessor.
EPA

The EPA is:

Examination board

The examination board will be constituted in-line with the HCPC Approved Education Provider’s academic assessment regulations and must have an external examiner present when considering achievement of the Dietitian.

Independence of the EPA will be assured through:

- the examination board, which will include the external examiner, being responsible for the final decision on the award of the qualification that confirms the apprentice has met the education outcomes required for registration with the HCPC.
- the end-point assessment organisation (HCPC Approved Education Provider) which will conduct the EPA.

<td></td>
</tr>
<tr>
<td>3. External Examiner for the End Point Assessment who will carry out required activities on behalf of the EQA provider</td>
<td></td>
</tr>
</tbody>
</table>

**Internal Quality Assurance (IQA)**

Internal quality assurance refers to the requirements that EPAOs must have in place to ensure consistent (reliable) and accurate (valid) assessment decisions. EPAOs for this EPA must:

- appoint external examiners who:
  - meet QAA Guidance on External Examiners/ Expertise for HE programmes
  - meet the EQA provider’s recommendations for external examiners
  - meet the Approved Education Provider’s requirements as set out in their ‘Assessment, Progression and Awarding’ or similar guidance

**Re-sits and re-takes**

In-line with the EPAO’s (HCPC Approved Education Provider) procedures.
Professional body recognition
This apprenticeship is aligned to the Health and Care Professions Council standards of proficiency and education programme standards for Dietitian and British Dietetics Association. This means that those who successfully complete the apprenticeship will be eligible to apply for registration with the HCPC.

Reasonable adjustments
The EPAO (HCPC Approved Education Provider) must have in place clear and fair arrangements for making reasonable adjustments for this apprenticeship standard. This should include how an apprentice qualifies for reasonable adjustment and what reasonable adjustments will be made. The adjustments must maintain the validity, reliability and integrity of the assessment decisions outlined in this EPA plan.
